

**USHUAIA -TIERRA DEL FUEGO- AND ANTÁRTIDA:
An inventory of resources that can be used turistically from
the idea of complementary destinations**

*Marisol Vereda
Universidad Nacional de la Patagonia
San Juan Bosco - Ushuaia, Argentina*

This article examines the possibility of visualizing Antarctica and Ushuaia/Tierra del Fuego as complementary tourist destinations. This idea can effectively be taking into account the relationships between the two places from different dimensions and based on their resources, providing a possible specialization of Ushuaia in its role as a maritime gateway to Antarctica.

KEY WORDS:*Antártida – Ushuaia – Resources – Touristic applications - Complementary Destinations*
