Regional de Blumenau - Brasil*

This work intends to understand what is happening in the arena defined as intersectorial, so that directions for a more balanced development of nature tourism with sustainability of SDR Blumenau territory can be determined. The objective of this study was to analyze if intersectorial actions could be documented, especially verifying the actions of the organizations (public, private and third sector) looking for sustainability.

KEY WORDS: nature tourism, intersectoriality, regional development, sustainability.
